OBJECTIVE

Software Engineering student with hands-on experience across full-stack development, databases, and UI/UX design, seeking an opportunity to build efficient, user-friendly software solutions.

EDUCATION

FAST National University of Computer and Emerging Sciences (NUCES) <i>B.S. in Software Engineering</i>	2023 – 2027
KIPS College <i>Intermediate in Computer Science (ICS)</i>	2021 – 2023

EXPERIENCE

Graphic Designer — Freelancer.com	2024 – 2025
Designed professional flyers and marketing graphics for international clients using Canva and AI-assisted design tools.	

PROJECTS

SatyFinder — Kotlin (Android)	May 2026
Built an Airbnb-style property booking app entirely in Kotlin, with listing browsing, search/filtering, and a booking flow.	
Text Extraction System — Python, Flask, OpenAI API	Nov 2025
Built an AI-powered text extraction system with a Flask backend and JS frontend; integrated OpenAI API for summarization and added history/profile management with a database layer.	
Restaurant Ordering Bot	Nov 2025
Built an automated ordering bot to streamline restaurant order placement and reduce manual workload.	
Arabic-Urdu Dictionary — Java	Nov 2025
Developed a dictionary application using object-oriented architecture; validated functionality with JUnit test suites.	
Apple Website Clone — HTML, CSS, JavaScript	Nov 2025
Recreated the front end of the Apple website with a focus on pixel-accurate, responsive design.	
Online Store	May 2025
Developed a web-based e-commerce platform enabling users to create accounts and purchase products.	
UI Design — Lost & Found System (Figma)	Apr 2024
Designed a complete UI including login/signup, item reporting, listings, and a permission-based contact feature.	

SKILLS

Languages & Frameworks: C++, C, Python, Java, Kotlin, HTML, CSS, JavaScript
Databases: MySQL, PL/SQL
Design & Platforms: Figma, Canva, Shopify, WordPress
AI & Automation: OpenAI API Integration, AI Automation
Languages: English (Proficient), Urdu (Native)
